

## THE PERFECT FINISHING TOUCH

Looking to update your home with unique and stylish accents? The finishing options you choose make all the difference. High-quality architectural trim work from R&G Moulding is the finishing touch that makes your home unique. From crown moulding and base boards to chair rails and custom-made door and window frames, R&G's moulding experts can create more than 500 different shapes and styles for your space.

## YOUR SOURCE FOR HIGH-QUALITY INTERIOR FINISH WORK

We believe that to create a great product, you need to start with the best materials, so we only use high-quality woods like poplar, knotty alder, and high-quality MDF. We work closely with local lumberyards and door shops to create traditional and contemporary finish solutions.

### R&G MOULDING OFFERS:

- |                        |                         |                           |
|------------------------|-------------------------|---------------------------|
| Base and Case Moulding | Cove Moulds             | Flat and Square Stock     |

| Crown Moulding         | Astrigal/Chair Rails    | Rosettes                  |
| Panel Moulds/Beadboard | Plinth and Corner Block |                           |

## WE MILL IN-HOUSE FOR BETTER CONTROL & QUALITY

Our in-house tooling gives us complete control over production quality and speed. We stock the 100 most popular profile cuts in a variety of styles. That means shorter lead times for custom orders, better quality, and the ability to run your choice of materials. Whether your project calls for traditional cuts or something matching the latest trends, we'll design and create the mouldings to match your vision.

## 500+ TRIM STYLES

Adding decorative base or case boards, chair rails, panel moulds, beadboard, or crown moulding is an affordable way to improve any room. Architectural trim gives any space a more finished appearance. The improvement is striking. If we don't have one you like, let us create a custom style for you.
